SYMBOL-BETA

Sub: Update on Beta's Uzbekistan subsidiary

Dear Sir/Madam,

This is to inform you that Beta Drugs has successfully completed its pilot project for manufacturing Oncology drugs at its Bekabad plant in Uzbekistan. The Oncology plant was inaugurated by Uzbekistan President honorable Mr. Shavkat Mirziyoyev. The company has filed registration for both Orals and injectables and is expected to go commercially live in May, 19. Beta becomes the world's first company to manufacture Oncology drugs in Uzbekistan.

The Uzbekistan government budget for purchase of Oncology drugs for the current year has been set at Rs 150 crores approximately. Beta believes that it is well positioned to capture both Institutional/Government and private Oncology market. The company also plans to export the Oncology drugs from its Uzbek plant to other CIS countries for which the work has already started.

This is for your information and appropriate dissemination.

Thanking You

Your's faithfully
For Beta Drugs Ltd

V.K. Batra
Vijay Kumar Batra
